No. 11

News Notes

King Motors have a special ad. in this week's paper. Read it.

Tuesday's rain soaked up the growing crops and gardens very nicely.

Mrs. E. H. Scoville is attending the M.I.A. Convention in Salt Lake.

The Honor Students will get out of School on June 17. The remainder will be dismissed on June 27th.

Mr. and Mrs. Jas. Mercer of Magrath spent Sunday afternoon with Mr. and Mrs. C. Litchfield.

J. E. Earl and wife of Barnwell were Raymond visitors over the week end.

W. C. Stone left on Tuesday morning to attend the M.I.A. Convention in Salt Lake City. He will be away about ten days.

The 2nd Ward won from the 1st Ward in their "M" Men's League fixture on Saturday 6-4. It was a good game featured by some spectacular playing.

William "Red" Hill conquered the whirlpool and lower rapids of the Niagara Falls in a specially constructed steel barrel on the afternoon of Friday May 30th.

The Dominion Parliament at Ottawa just before prorogation passed estimates of \$900,000 for an internal storage elevator at Lethbridge. Construction will commence at an early date.

R. W. Risinger, New Dayton Farmer was the unanimous choice of the Liberal Convention at New Dayton on Saturday to oppose J. M. Connor, U.F.A., in the coming Provincial election.

It is reported that Insurance Companies and Trust Companies have taken over 840,000 acres of farm land in Western Canada and have engaged an expert farm manager to run it. The land has been taken over because of defaulted mortgages and whether the merger intends farming this tract permanently or just until defaulters can pay is not known.

FLAT TIRES

As our party skimmed past in a Flying Cloud, we felt sorry for the man by the side of the road with the flat tire, who was losing so much time and temper. Farther on we passed another signal of distress, whose machine was running with missing cylinders.

We felt glad that our auto was filled with the capacity for work, that our brakes were holding, and that there were no worn out parts liable to play out through sheer exhaustion. The engine was purring happily for it had been fuelled up with the best there was. Taking all things into consideration it looked as if we were enjoying life to the full that fine spring day when all above was blue and gold and all around was green and fragrant.

It was the doctor at the wheel who looked serious for a moment as we drove past a large plantation where there were many lovely trees and children playing in the shade. He bade us look at them carefully, and we did so, as we flew past and waved to them. Each little child had some physical defect, some being so crippled that they were in plaster shoes and iron supports.

"There's a wonderful Repair Shop" said the doctor. "Making over boys and girls who look ready for the scrap heap, into healthy happy children. There's nothing in all Canada that deserves more appreciation and support than looking after the human engine along the road of life."

We medical men think it a privilege to help along these little ones, and fill them up with health and strength, for without it life's journey is but a series of flat tires and missing cylinders. We observed that our driver wore in his button hole the emblem of the Red Cross, the society that stands for the prevention of disease and the mitigation of suffering.

Premier Brownlee at Raymond

A large and enthusiastic audience greeted Premier Brownlee and M. J. Connor, M.L.A. for Warner, constituency in the Second Ward Chapel at 11 a.m. on Wednesday morning.

Wm. Redd, Pres. of the local U.F.A. was in the Chair and introduced M. J. Connor who expressed his pleasure at being present and said that he now realized that our demands for good roads were certainly well founded because of what he had just come over. Felt that the Provincial government should be complimented on their splendid road program. Hoped to be better acquainted between now and election day.

When the Premier entered the hall the audience stood as a token of respect to him.

In a few well chosen words Mayor P. W. Cope introduced the Premier and extended to him the best wishes and freedom of the town while here.

The Premier then took the platform and after thanking the people for their presence and expressing his pleasure at being in a community where he felt he was welcomed by all people, he launched into an explanation of the records of his Government and the charges brought against it by the opposition. Space and time will not permit of a detailed report, but in dealing with the Capital Debt of the Province, the Premier showed that the present administration had succeeded several liabilities into real assets, and that in the increase of the bonded debt from \$37,000,000 in 1921 to \$101,000,000 in 1930 the government had transferred several indirect debts into the direct debt columns, and that aside from the loss on the northern railway transaction this debt generally represented gilt edged assets.

Speaking of unemployment the Premier said that the coming winter would see the Government wrestling with the biggest unemployment situation they had had to meet yet, and that a government to handle the situation would need to be strongly entrenched. Speaking of the charges made by the opposition that the government was extravagant and increasing taxation, he said that the only new tax levied in 9 years was the Gasoline tax, and that every province had done this, so that Alberta was no different than the rest of Canada. Taxation was the same but the total amount was greater due to natural growth. If people would tell him what public services to dispense with taxes could be reduced accordingly, but it was useless to ask for reduced taxation and in the same breath ask for added services. From figures he showed that administration costs, while

M.I.A. Swarm Day

A very successful "Swarm Day" was held in the Opera House Sat. May 31. The opening session commenced at 10:30. Mrs. L. D. King conducting the exercises. The program consisted of lively Bee Hive songs, rounds and yells under the direction of Stake Choristr Blanch Scoville, talks by the girls reports by ward Bee Keepers, a one act play by Magrath 1st Ward and a splendid talk on "The Physiology of your body" by Thill, Boyson. A tasty lunch was served Cafeteria style to about 85 Bee Hive girls and officers under the direction of Stake Secretary Angelina Witbeck.

The afternoon was spent in awarding prizes, under direction of assistant Stake Bee Keeper Annie Jones, to the following girls: First prize for best Scrap Book Elva Woolley Ray, 1st Ward; 2nd prize Helen Brandley, Stirling. First prize for best Symbol Helen Brandley, Stirling and a special prize to Marjorie Clark Ray, 2nd Ward.

The formations of the Bee Hive girls were conducted under the direction of Stake Bee Keeper Mrs. Romeril and the certificates were awarded to the graduating girls under the direction of first councillor Hon. nie Nalder.

more extensive were lower than in 1921 when the present government took office. He did not consider a Public Debt bad business, as it was the means governments had of letting future generations help pay for improvements they share the benefit of.

In road development the speaker stated that when the Farmer party took office in 1921 there was not a mile of standard grade and only 17 miles of experimental gravel. Today there were 2,820 miles of standard grade, 1530 miles of standard grade ready for gravel, 1,030 miles of first course gravel and 530 miles of second course gravel. Considering the population of the province he considered this very good and said that other provinces this year were borrowing large sums of money to keep pace with our road program.

Speaking of education, he thought our province was equal, if not superior to other provinces in this respect and that they were trying to make this even better.

The Natural Resources was a big problem, bigger than most people realized, and after the transfer to the Province it would take one or two years to get the machinery running smoothly and find out just where they were at. This was one reason for calling an election this year.

The policing of the Province was another point of attack but Mr. Brownlee said that to date the government had not been convinced that the dissolution of A.P.P. would be a good thing. They were watching the experiment in Saskatchewan and if the experiment was successful in Saskatchewan and the moral of the citizenship did not suffer, Alberta would then consider it. A Gleamer Girls chorus led by Mrs. H. F. Allen sang "Hark, Hark the Lark", and the singing of the National Anthem concluded the meeting.

A hearty round of applause showed the Premier the appreciation of the audience for his speech.

Sprayer at R. S. A.

The School of Agriculture has received a specially constructed weed sprayer from France. Mr. Smith expects to use this sprayer in a number of experiments on annual weeds growing in a grain crop.

Certain chemicals are selective in their action, that is, they will destroy certain weeds and not injure the grain crop. The chemical Mr. Smith is using for this purpose is sulphuric acid. The weeds which are being experimented with are stinkweed wild mustard, pigweed and other broad leaved annuals.

The machine will be drawn by 2 horses and spray a swath about 16 feet wide.

The spraying of grain crops which are badly infested with weeds is a regular farm practice in France and Germany. The spraying is done when the grain has 3 to 5 leaves and when the weeds are small but cover the ground.

The machine and acid for spraying are both supplied by the Consolidated Mining and Smelting Co. at Trail, B. C. who are also supplying the fertilizer for local use.

100 'Glorified' Girls In Beautiful Chorus of "RIO RITA"

One hundred of Hollywood's most shapely extras come to the Capitol Theatre next Thurs. Fri. and Sat. as the chorus of "Rio Rita," Radio Pictures' musical fabulous screen operetta which has Bebe Daniels and John Boles in the leading roles.

The girls form the first stock chorus in the history of motion pictures.

Pearl Eaton, RKO dancing director created several original dance numbers for the Radio Pictures version of Ziegfeld's great musical comedy hit. Before she entered pictures, Miss Eaton was the only woman musical comedy producer in New York.

Board of Trade Luncheon

Soldiers Memorial Decided Upon

The G.W.V.A. met in the Pharmacy on Wednesday evening and held a rather lengthy business meeting.

The point of greatest interest was the definite decision to proceed at once with the erection of the Soldiers Memorial. The Vets will meet in a body next Wednesday at 2 p.m. on the Memorial Site for the turning of the first sod and excavating for the base. All Vets are requested to be present.

The Memorial base and shaft will be of white cement, decorated with side arms and maple leaves in bronze and the bronze plate for the honor roll. This will be surmounted by a life-size white marble statue of a soldier in full kit, standing at ease. It was left with Dr. Leech, Mayor Cope, Sam Dyson and D. L. Gilbert to place the order for the statue.

The rest of the time was spent in a discussion of ways and means of raising funds for the Memorial. Mayor Cope will head a Committee for canvassing the business houses and the W.I. will be asked to canvass the private homes. W. G. Smith, Sam Dyson and Ted Davis are a committee to arrange for a ball game and dance during July and to see the Stampede Committee for tag day privileges at the Stampede.

Half Yearly Statement of Bank of Montreal Makes Strong Exhibit

Total Assets Are \$822,599,648—Liquid Assets Are Over 51 Per Cent. of Liabilities to Public—Capital Has Been Increased to \$36,000,000 and Rest Account to \$38,000,000—Profit and Loss Account Shows Gain For Half-Year Period.

The half-yearly statement of the Bank of Montreal, makes a most interesting and reassuring exhibit. As is well-known, all financial and banking institutions with business in general, have had to face during the past six months the unusual conditions subsequent to the stock market crash, but it is evident from its usual statement that the Bank of Montreal has been able to maintain its usual strong cash and liquid position and in addition to report satisfactory profits made for shareholders.

The general statement which is for the six months to April 30th shows a number of changes. The paid up capital now stands at \$36,000,000, up from \$34,548,760 a year ago while the Rest has been increased to \$38,000,000, from \$35,548,760 and is two million dollars above the paid-up capital.

Increased Profits

It is likely due to the larger capitalization and the fact that the bank has been able to report to shareholders slightly increased profits for the six months as compared with the corresponding period last year. Profits amounted to \$3,543,017 up from \$3,491,651. There were also received in the six months payment of \$51,459 in premiums on new stock. These amounts when added to the balance carried forward, brought the total available for distribution up to \$4,330,059. This was appropriated as follows: Dividends and interest on installment payments on new stock \$2,176,586; amount credited to rest account \$1,459 provision for taxes Dominion Government \$229,979; reservation for bank premises \$600,000; leaving the balance of profit and loss to be carried forward at \$1,281,033.

In the general statement of assets and liabilities total assets are shown at \$822,599,648 compared with \$705,653 a year ago. Of this liquid assets are reported at \$373,421,296 equivalent to 45.4 per cent.

The Board of Trade Luncheon was held at the Utah Cafe at 12:45 p.m. on Wednesday June 4, with Pres. T. O. King in the chair and Premier J. E. Brownlee as the honored guest. 32 persons sat down to the splendid dinner served by the Cafe owners.

As soon as Luncheon was over, Pres. T. O. King spoke briefly and rehearsed some of the activities of the Board in connection with the Sugar Co. locating here and the co-operation of Raymond with Lethbridge in obtaining the internal storage elevator that now seemed certain. He also spoke of the endeavors along scholastic lines and praised the Public and High School and the Raymond School of Agriculture which was giving the young men and women the practical training they need for successful agriculture. He emphasized the need of its continued operation and said Manitoba was watching our efforts in this respect.

Premier Brownlee then spoke for a few minutes and said that the government had watched with interest the growth of the sugar beet industry and was doing all it could to foster and encourage it. The Schools of Agriculture were being conducted as some what of an experiment which was one reason why the facilities differed at the various schools. It was the intention to continue the Raymond Schools and if dormitories at Olds and Vermillion proved to be an asset, Raymond may expect additional facilities in the proper time. The changed attitude regarding education seemed to point to less training of the mind and more attention to the body. This was the theory they were working on. He had no promises to make regarding additional facilities at once, but reiterated his statement that there was no intention at present of closing the Raymond School.

Because of other engagements Messrs Brownlee and Connor were excused to go to Warner.

The meeting then proceeded with the reading and acceptance of the minutes of the last meeting. Dr. Leech was appointed to the Road Committee. O. H. Snow Sec. of the Sugar City M. D. No. 38, was then asked to report the recent road Conference that had been held with Premier Brownlee and Geo. L. Stingham in Cardston. Mr. Snow traced the continuous efforts of the past two or three years, and said that when Mr. McPherson Minister of Public Works had returned from the Coast recently Mr. Stingham had discussed with him the details of the Cardston-Lethbridge road and that now the Government had a proposition to present to the interested areas as follows:

The Government will borrow the money and build the road finishing it as soon as possible probably next year. The government will pay 50 p.c. of this cost, the taxpayers in the area where the road goes pay 50 p.c. and the government stand all maintenance costs. The M. D.'s and L. I. Districts will have 10 years to pay their share. Where good grades are now built they will be credited for all the work they have done. With the grant that we have each year, this could be applied on our share, our taxes could be used on other roads, and eventually our road burden would be lighter. We have the chance now of accepting this proposition and getting one of our road problems definitely off our hands.

The Board was unanimous in their hearty endorsement of the scheme and the action of the Local Council in accepting it. Meeting adjourned at 2:30.

According to reports Tuesday's rain did not reach very far.

"Are you John A. VanDorky?" asked the young man beside the clock rack.

"No," was the surprised reply. "Well, I am" came the frosty rejoinder, "and that is his sicker you are putting on."

Fascinating Links in Canada's History

Ottawa, Ont. June 4; (Special to the Recorder) A little known episode in Canadian history during the days of the construction of the C.P.R. was told by W. E. Round of Calgary at a luncheon in this city recently. His tale had to do with the formation and eventual disintegration of a unique society known among the members as the "Pathfinders" a society formed by an engineer and his party while on a survey through the Rockies.

The society was formed one evening in July 1831. On the night in question about twenty men gathered about Lake Wapta, the engineer, transit men, chain and rod men laborers packers and cook. For weeks they had travelled, and after entering the mountains had literally hacked their way through the bush to their camp. From the time of leaving on the survey, their only food had been boiled salt pork, bannock and tea lacking either milk or sugar. It was realized that for weeks to come the menu would remain the same. Most of the men were grumbling and only two or three believed that the railroad would ever pierce the mountains. The chief topic of conversation was their probable whereabouts the following year.

"Let's make a deal" said one, "Let's promise to write to each other at least once a year." The idea appealed to all and in the fading twilight the 20 men stood with upraised hands and made a solemn vow to that effect. Through the years that vow was kept time took its toll, however, and one by one death called their numbers, until last summer, only two remained Tom Wilson of Banff and A. L. Rogers nephew of Major A. B. Rogers and with him co-discoverer of Rogers pass.

The "Pathfinders" alas are a thing of the past and a sole survivor Tom Wilson now remains for information was received from Waterville, Wash. in the late summer to the effect that "A" Rogers had left to join the great majority.

"Do you give a guarantee with this hair-restorer?"
"Guarantee? Why, we give a comb."

COUNTRY TO ELECT NEW PARLIAMENT, CLEAN BUILDINGS

Ottawa, June 4 (Special to the Recorder) That good ship the Sixteenth Parliament of Canada has gone down at last and the 245 members of its crew are floundering in the seas of a general election campaign. How many of them will be listed as survivors and how many of them will sink into oblivion only election day itself will tell.

The end came in characteristic fashion. There were those who stuck to the ship to the last and were found at their posts when prorogation finally engulfed them. And there were those who did not wait for the end but struck out for their ridings some days before it came. It was a case of any port in a storm and to some members the best chance of a life preserver seemed to lie in active attention to the business of organization in their own constituencies.

Parliament Hill today is bare, literally as well as figuratively. The parliamentary members are not immune against the virus of the souvenir collector. And to some of them the more tangible the moment the greater is its sentimental value as a reminder of days that once were and may be no more. It was a matter of poignant regret to some that the couches in their rooms could not be sufficiently dismantled to mail home in parliamentary envelopes under the privilege of the parliamentary frank.

Incidentally, there is no indication around parliamentary corridors that the \$4,000 sessional indemnity has become an insufficient inducement. Last session when the lobby for a \$6,000 emolument was at its height the argument was that the present remuneration was not adequate to attract outstanding figures into public life. If such was really the case the members were only indulging in their argument in self depreciation, for practically without exception they are back in the fight again, anxious to serve on the same old terms.

LET'S GET THAT ROAD

The best news we have had for a long time is the announcement from the Government that they are prepared to gravel the road from Lethbridge to Cardston via Raymond and Magrath on a 50-50 basis. Some people are of the opinion that this is just election talk. We are of the opinion that it is the outcome of 3 or 4 years of unceasing effort on the part of Southern Alberta Board of Trade's Municipal Council Geo. L. Stringham M.L.A., and other interested organizations and individuals.

We are also of the opinion that NOW is the time to act. As outlined by Mr. O. H. Snow at the Bar of Trade Meeting on Wednesday, the Government will borrow all the money, build the road as soon as possible, and enter into an agreement with the Sugar City M.D. for that body to pay back 50 per cent in 10 years time.

This appears to us a very good solution to the problem. It means that a gravelled road will also be built through to Craddock and west to the Magrath road and north to the correction line. The cost is not likely to amount to more than 50 per acre per year for the 10 years time of the contract and eventually lower taxes will result, also better market and feeder roads.

Dirt roads at best will not stand up for some years. The Municipality has been spending 25 per cent on these main arteries, and as Mr. Snow said we have no roads now. When the gravel road is built the government will assume all maintenance, and the money expended on these 17 or 18 miles heretofore can go to improving our market and feeder roads.

Every person who operates a car will save more than he will pay in extra taxes on the up-keep of his car. No doubt there are plenty of arguments, pro and con, but without doubt it is a question that should be very thoroughly considered before we turn our backs on it.

The Municipal Council favor it. Board of Trade favor it, let's consider well and see if we don't decide that it is decidedly good business to pay half the original cost and then for get the eternal problem of maintenance.

FUNERAL SERVICES

CHARACTER OF MRS. ELIZABETH GIBB EULOGIZED AT SERVICE

There was a very large attendance at the funeral services held here Monday over the remains of Elizabeth Gibb, wife of Henry Gibb, and eldest daughter of Mr. and Mrs. Nephi McLean.

While the human tendency of mourning is always present on these occasions, yet, as pointed out by the speakers, there is a source of satisfaction in the knowledge of a great reward awaiting this good woman for her faithfulness and devotion to service, and the fact that death brought a great relief to the woman who for many years has been a sufferer from physical illness.

The speakers were John F. Anderson of Cardston who had known deceased all her life. L. D. King and Pres. H. S. Allen, all of whom offered words of comfort and consolation to the sorrowing relatives, and eulogized the Christ like life of the deceased.

The singing was under the direction of C. B. Strong, whose choir rendered very fine and appropriate music; also a male quartette under his direction. Mrs. E. Scoville sang a beautiful solo "Abide With Me."

There was a very large display of beautiful floral offerings from the many friends.

Bishop J. H. Walker was in charge of the services, and M. E. Christensen of Lethbridge supervised the burial, which was made at the city cemetery.

HALF-YEARLY STATEMENT OF BANK OF MONTREAL MAKES STRONG EXHIBIT

ivalent to 51.03 per cent. of liabilities to the public. Included in them are cash holdings of 94,421,403 equal to 12.90 per cent. of public liabilities.

Current Loans Higher

At the same time there is somewhat unexpected increase in current loans, and discounts in Canada and these now are reported at \$535,301,394, up from \$314,464,137. While a portion of this increase may be at-

tributed to the wheat situation, it is also known that there is an increased tendency on the part of large customers to avail themselves of banking accommodation.

As was to be expected, with the change in the general credit situation throughout the world, the most important variations are in the call loan department. Call loans in Canada are down to \$27,460,856 from \$39,359,779, and call loans in Great Britain and the United States have been reduced to \$63,028,615 from \$139,974,369. At the same time, balances due to banks and banking correspondents elsewhere than in Canada—which to a great extent represented deposits temporarily placed on this side due to higher loan rates—are now down to \$9,660,840 from \$35,597,167.

Total deposits are now \$388,070,752. Of this amount deposits bearing interest are \$545,856,287 and deposits not bearing interest \$130,418,937.

The statement, with its many features of strength could hardly make its appearance at a more opportune time, and on this account the leading financial centres of the world will undoubtedly welcome the opportunity of seeing how fully this nationwide institution has taken care of a situation involving many unusual conditions.

MANY NEW YORK SONG HITS IN ALL-COLOR "SONG OF THE WEST"

Some of the most successful music written by Vincent Youmans, author of the songs and music of "Till the Clouds Roll By," "Rio Rita," "Louisiana Lou," and many other operettas are heard in "Song of the West," all-color talking and singing picture of the covered wagon days now at the Capitol Theatre.

Few outside of New York theatre-goers have heard these tuneful songs, sung in this production by John Boles, Vivienne Segal, Marie Wells, Joe E. Brown, Sam Hardy, Ed. Marlindale, Eddie Gribbon, Rudolph Cameron and Marlon Byron and the chorus of one hundred. Ray Enright directed the picture, with Lou Silvers Vitaphone Orchestra furnishing musical accompaniment. See it To-night or Tomorrow night at the Capitol.

Bride-to-be highly Honored

An event of unusual interest was the shower in honor of Miss Jennie VanOrman, at the Branley home on June 3rd.

The affair was given by the Eleanor Girls of the M.I.A. Games and stunts kept the crowd laughing during the evening, but interest was at its height when the Bride-to-be was presented with an Aladdin's lamp. The good

genie came at her wish and presented man interesting gifts. The surprise to all came when Jennie had to untie a huge box and out stepped her fiancée Mr. Bron Vance. He then assisted in opening the parcels. Many of unusual shape and size were brought by the bride but the kitchen maid caused the most merriment. Miss Ellen Spackman, Georgia Mendenhall and Kate Alred kept the fun going while Mrs. Brandley was assisted by Lorell Boyson and Orpha Vance with the refreshments. Tables decorated in Pink and White were set for 80 during the afternoon and evening.

THREE BIG DAYS

Thurs.-Fri.-Sat. June 12, 13 and 14

News Notes

Lee Brewerton was a Magrath visitor on Monday.

Mr. and Mrs. Fred Burton and family of Cardston were Sunday visitors with relatives here.

Geo. Romeil is busy on the Wellington Lethbridge road now with his Caterpillar "60" and elevated grader.

C. R. Wing is improving now after a serious relapse following tonsillitis operation. He had a bad hemorrhage of the throat and was very weak for a few days due to loss of blood.

A MARATHON UNDER HANDICAP

Governor Allen, of Massachusetts, hit upon a timely simile the other day when in a radio address discussing Child Health Day he urged that it is no more fair to allow the child to enter the competition of education held back by physical handicaps than it would be to expect a runner to enter a marathon dragging a ball and chain. He urged further that never has it been possible to give children wiser care than it is today.

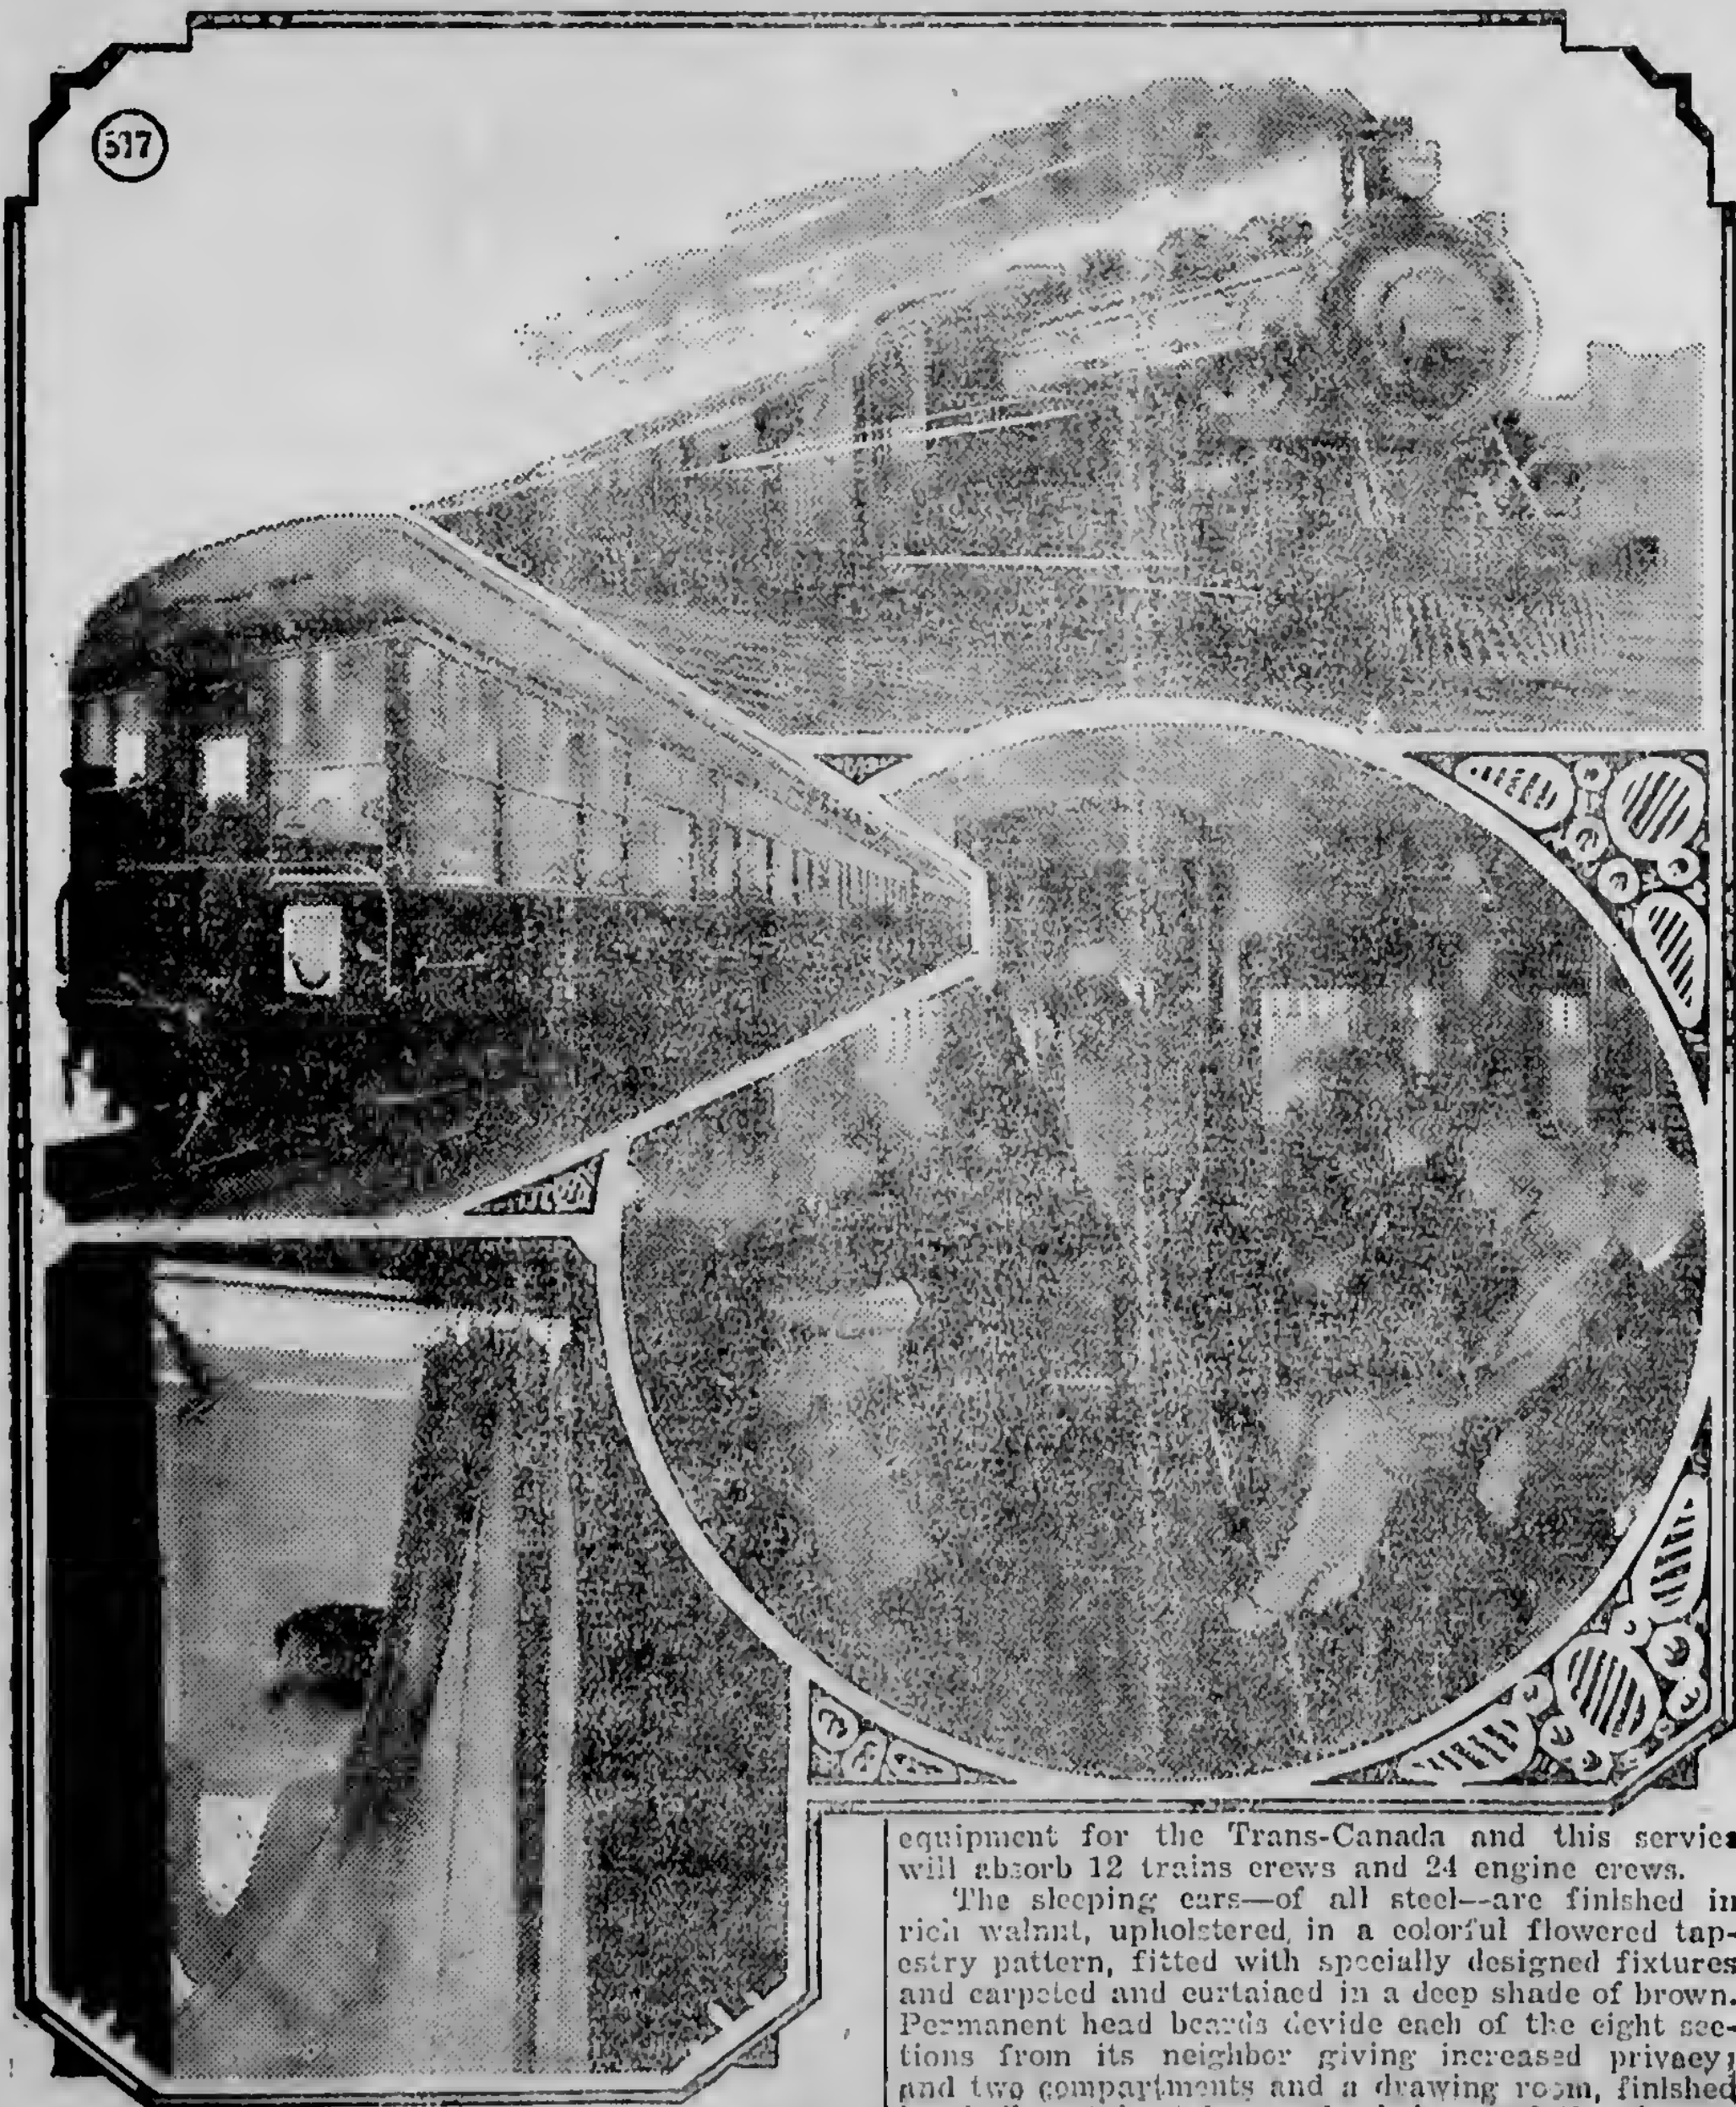

In main outline Governor Allen is unquestionably right in his contention and plea. And that the people of the civilized world are today awakening to the necessity for adequate protection of the younger generation in every phase of its development is a healthy sign. Boys and girls have always needed rational support and guidance and only too frequently such support and guidance have not been forthcoming. Indeed the ignorance of many parents regarding even the most elementary phases of cleanliness and proper regard for the human mind and body has always been stupendous.

There is at least some question, however, as to just how far there is justification for placing the health of the child in school entirely on a medical basis. Indeed many of the so-called health drives in the schools probably do more harm than good, because, in instituting or advising alleged preventive measures against many diseases, they tend to inculcate a large degree of fear. Moreover, many today take exception to these measures, believing that they are definitely harmful in themselves. That parents need to be aroused to a realization of the need of watching over their children, and taking precautions to offset physical, mental or moral disabilities, few will deny. As to whether the State or Nation has any right to define the methods that are to be employed, when those methods are not universally accepted as helpful, should not need discussion. A reasonable safeguarding of the well-being of children in schools ought not to be inconsistent with the fullest freedom of choice as to how they shall in individual cases be taken care of and aided.—Christian Science Monitor.

ANCIENT RETAINER

"How long has your cook been with you?"
"Oh, about three husbands." Life

Trans-Canada Starts Season

The twelfth consecutive season of the Trans-Canada Limited, Canadian Pacific flyer de luxe across the Dominion will commence when the train leaves the Windsor station, Montreal, at 6:45 p.m. daylight time, Saturday, May 17 next. Canada's Permanent head boards divide each of the eight sections between Montreal and Vancouver in 89 hours, fifteen minutes and return in 85 hours, fifteen minutes. In the period of its running between these points the Trans-Canada Limited will make 268 trips up to September 27.

Eight million dollars has gone into the cost of

equipment for the Trans-Canada and this service will absorb 12 trains crews and 24 engine crews. The sleeping cars—of all steel—are finished in rich walnut, upholstered in a colorful flowered tapestry pattern, fitted with specially designed fixtures and carpeted and curtained in a deep shade of brown. Permanent head boards divide each of the eight sections from its neighbor giving increased privacy; and two compartments and a drawing room, finished in similar style, take up the balance of the sleeper, apart from the unusually roomy dressing rooms for men and women. The dining cars are finished in a like manner and have forced ventilation whereby used air is sucked out of the car by powerful fans, ensuring a fresh atmosphere. Rear end equipment, as it is technically called, is featured by the unique solarium lounge car containing green tile bathrooms, spacious dressing rooms and a lounge compartment glazed with vitreous glass to admit the ultra-violet and most beneficial sun rays. Lay-out shows Trans-Canada leaving the Windsor Street station, Montreal, on its long journey; Solarium car, Lounge car and Ladies' shower.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form,
of the Bank's

SEMI-ANNUAL STATEMENT

30th April, 1930

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$ 688,067,754.78
Payable on demand and after notice.	
Notes of the Bank in Circulation	38,473,147.00
Payable on demand.	
Letters of Credit Outstanding	10,941,971.37
Financial responsibilities undertaken on behalf of customers for commercial transactions (see offsetting amount (x) in "Resources").	
Other Liabilities	8,745,783.97
Items which do not come under the foregoing headings, including \$5,000,000 advances from the Dominion Government under The Finance Act.	
Total Liabilities to the Public	\$ 746,228,657.12

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits & Reserves for Dividends	76,370,991.11
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$ 822,599,648.23

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 94,421,408.82
Notes of and Cheques on Other Banks	45,507,317.11
Payable in cash on presentation.	
Money on Deposit with Other Banks	15,448,293.39
Available on demand.	
Government & Other Bonds and Debentures	121,661,712.27
Gilt-edge Securities practically all of which mature at early dates.	
Stocks	922,087.90
Railway and Industrial and other stocks at or below market value.	
Call Loans Outside of Canada	68,028,615.57
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing moneys quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	27,460,856.27
Payable on demand and secured by bonds and stocks of greater value than the loans.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	\$ 373,450,296.33

(equal to 51.03 of all Liabilities to the Public)

Other Loans	417,998,828.93
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Two properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate	1,930,456.44
Acquired in the course of the Bank's business and in process of being realized upon.	
x Customers' Liability Under Letters of Credit	10,941,971.37
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not Included in the Foregoing	3,778,095.16
Making Total Assets of	\$ 822,599,648.23
To meet payment of Liabilities to the Public of	746,228,657.12
leaving an excess of Assets over Liabilities to the Public of	\$ 76,370,991.11

PROFIT and LOSS ACCOUNT

Profits for the half year ending 30th April, 1930	\$3,543,017.87
Dividends paid or payable to Shareholders	\$2,167,586.99
Provision for Taxes Dominion Government	229,979.45
Reservation for Bank Premises	600,000.00
	2,997,566.44
Balance of Profit and Loss Account, October 31st, 1929	\$ 545,451.43
	735,582.31
Balance of Profit and Loss carried forward	\$1,281,033.74

The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 112 years the Bank of Montreal has been in the forefront of Canadian Finance.

Wm. Webster, Jr. of Mt. View spent Sunday in Raymond.

Henry Smith of Hareley was a Raymond visitor Saturday.

FRIEND OF THE STORK

The doctor of a country village had 2 children who were acknowledged by the inhabitants as being the prettiest little girls in the district.

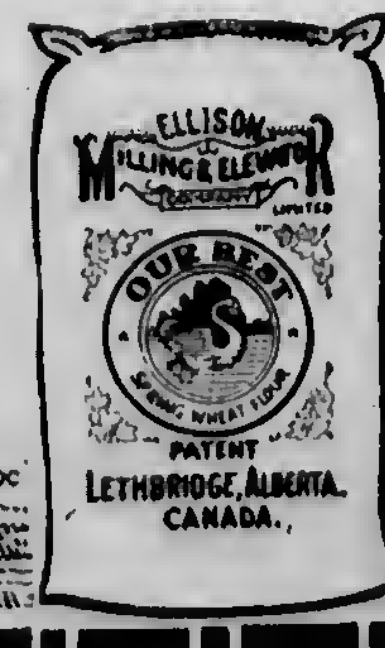

While the two children were out walking one day, they happened to pass quite near two small boys; one lived in the village and the other was a visitor.

"I say," said he latter to his friend. "who are those little girls?"

"They are the doctors' children," replied the village boy. "He always keeps the best for himself."

DID YOU EVER STOP TO THINK

(By Edson R. Walte)

S. A. WILLMOTT, ADVERTISING
MANAGER OF THE LONDON
(ENGLAND) DAILY MIRROR,
SAYS:

THAT advertising has been a tre-
mendous influence in raising the
standard of living.

Announcements of furniture creams,
cleaning preparations, furnishing
houses, etc., have depicted deligh-
ful homes that have been the envy
of every housewife, and have cre-
ated and ever stimulated a desire
for something better.

Shirt and collar manufacturers' an-
nouncements and tailoring adver-
tisements have made men desire
better clothes. Motor-car manu-
facturers and sports out-fitters
have each done their share in ad-
vertising not only their wares, but
also in proclaiming the joys of the
open air, and have made many a
man and woman yearn for more
leisure to spend out of doors.

Food manufacturers have depicted
sumptuous repasts served on beau-
tifully laid tables not only throw-
ing around their goods a halo of
high quality, but also arousing
many a desire for better table lin-
en and equipment.

At the same time, advertising has as-
sisted very materially in providing
the masses with better wages with
which to satisfy these desires. By
building up business, creating big-
ger and yet bigger sales, it has
enabled employers to put more in-
to the pay envelope.

IF BY CIVILIZATION IS MEANT
RAISING THE STANDARD OF
LIFE, THEN ADVERTISING IS
INDEED A VITAL CIVILIZING
FORCE.

NEXT BEST THING

Old Gentleman (bewildered at the
elaborate wedding):

"Are you the bridegroom?"
Young Man—"No, Sir, I was elim-
inated in the semifinals." (Kentish
Times.)

DON'T HURRY, HERE'S YOUR HAT

He, at 11 p.m.—Did you know I
could imitate any bird you can name?
She—"No I didn't. Can you imitate
a homing pigeon?" (Cappers Weekly)

DISCARD AUGUST 4 AS ELECT- ION DATE

Ottawa, May 27; (Special to the
Recorder)—The Government this week
rejected August fourth as an alter-
nate date to July 28 for the election.
If parliament is not dissolved by May
29 to permit use of the last Monday
in July for balloting, Canadians will
go to the polls on August 11 to choose
their government for the next five
years.

Objection to August 4 was twofold
in the first place a large number of
Canadian cities observe the first Mon-
day in August as a civic holiday, an
occasion which finds many thousands
away from their homes. Hence poll-
ing on that date might have an un-
pleasant reaction upon a party which
kept the holiday makers at home. An
other objection this year is that the
date is the anniversary of Britain's
entry into the Great War. These two
factors have decided the issue and un-
less polling is possible on July 28 it
goes over until August 11.

As events develop it appears more
and more probable that local factors
rather than the budget, or its provi-
sions, will be the deciding factor in
the election outcome.

Premier Ferguson sounded the key-
note of attack in Ottawa at Lord's
in a scathing denunciation of Premier
King's "not a five cent piece" to a
Tory Government declaration. Mr.
King took the first opportunity in
the House to quote other parts of his
speech made the same day to assure
the five Conservative provinces that
his references to "not a five cent piece"
was being misused. Conservatives
have branded this "Mr. King's new
constitutional issue" and propose to
force it.

In Quebec the prelude to the cam-
paign shows the undercurrent of bitter-
ness, with Saskatchewan the butt of
racial animosity which is being ex-
ploited particularly in rural districts.

The Maritime provinces have not
yet developed their campaign to a
point where forecasts can be indulged
in. It is in the West, perhaps, that
the budget will play the largest part
in determining results. There arises
the question as to whether or not any
definite swing has taken place to-
wards protection, and if not, what
favor will be accorded Mr. Dunning's
new duties. In British Columbia little
alteration in the present standing is
anticipated.

Mr. King and Mr. Bennett hope for
a few days rest after the House closes.
After that the flood of oratory will
run sixty days and nights—a fifty
per cent. advance on the flood of bib-
lical history.

Your Home Town Printers

Broadcasting the R-100

When the R-100, Great Britain's huge new dirig-
ible, arrives in the Dominion shortly, there will
be no excuse for any Canadian being ignorant of her
visit. The news will be broadcast throughout Canada
by the Trans-Canada Broadcasting Company from
coast to coast over the radio programme transmission
system of the Canadian Pacific Railway Company's
Telegraphs.

The arrangements will include a twenty-four hour
service on the day of arrival and will be put out
through stations in Quebec, Montreal, Toronto, Lon-
don, Winnipeg, Regina, Saskatoon, Edmonton, Red
Deer, Calgary, Vancouver, Fleming and Yorkton,
Sask. Messages from the airship will be broadcast
as she approaches the 75-mile radius and will include
a description of the mooring one of the most inter-
esting and exciting moments in the whole programme.
This will be broadcast by T. D'Arcy Finn, managing
editor of the "Ottawa Citizen" as chief announcer.
The broadcast of the arrival will be supplemented
during the two succeeding days by bulletin services
and descriptions of special events. Lay-out shows
the R-100 in flight; the kitchen of the air liner, and
the St. Hubert mooring mast.

FIRST AID IN THE HOME

It is a good plan for every family to be prepared to deal with emergencies which may arise. In each home, there should be available the few articles which may be used with advantage in dealing with such emergencies. It is best to keep these articles properly labelled in a separate medicine cabinet, locked and out of the reach of children.

The following is a list of the articles for the first aid cabinet:—A first aid outfit containing sterile gauze and bandages to be used in dressing cuts and wounds.

Aromatic Spirits of Ammonia, two ounces. Give one-half teaspoonful in water in case of fainting.

Alcohol rubbing for use as a liniment to relieve pain in cases of sprains and strains.

Carbolated Vaseline one tube. Use in the treatment of burns. Apply freely; cover with a piece of clean cotton and hold in place with a bandage.

Oil of Cloves. A drop or two in a rubber cotton placed in the cavity of an aching tooth.

Boric Acid. Dissolved in water, may be used as a mild antiseptic wash of for making a compress.

Syrup of Ipecac. Use one teaspoonful, followed by a drink of warm water, to cause vomiting.

A roll of absorbent cotton, a pair of scissors, a clinical thermometer, safety pins, adhesive tape, and medicine glass can be conveniently kept in the cabinet and will be found useful in carrying out the instructions of the physician when there is illness in the home.

The above list may seem to be very short to the person who is used to having shelves crowded with bottles. It is to be remembered that most minor illnesses do not require treatment with drugs. The most that the lay person should do while awaiting the arrival of the doctor is limited to a few things.

A severe illness is not threatened over time a member of the family complains of not feeling well, but a sick stomach, headache or chill may be the first warning of the onset of a severe illness.

The trained physician requires all his skill to determine the cause of his patient's symptoms and the proper treatment necessary. It is generally expensive and ineffective, if not actually dangerous for the lay person to attempt to prescribe for himself.

Parson, meeting neighbor bringing home a load of hay—Jenkins! Would it not be better if you attended services instead of working this hay?

Jenkins—Mr. Dawkins, I don't know whether it would be best to sit on the load of hay and think of religion or sit in the church and think of the hay.

News Notes

The infant of Mr. and Mrs. John Billiek passed away on Wednesday

Last week, and the baby of Mr. and Mrs. Chandler died on Friday, from intestinal trouble. Funeral services over the Chandler child were held at the home Sunday, C. E. Alfred of the 1st Ward Bishopric in charge.

A start was made Saturday at the remodelling of the Public Square. Tuesday was decided on for the team work but the rain interfered. If every one will lend a hand and take an interest in this the work will soon be done and we will have a playground to be proud of.

Please excuse the errors. Due to unavoidable causes we were unable to correct them.

1932 WORLD'S GRAIN SHOW NOTES

Inquiry has been made at headquarters of the World's Grain Show, as to whether or not the number of exhibit area from any one province or state is restricted. There is no restriction whatever to the number of entries in any of the competitive classes except that an exhibitor will not be allowed to make more than one entry in any one class.

J. C. Hackleman representing the Illinois Crop Improvement Association has written the World's Grain Show office for additional copies of the Prize List. He desired to know also if the number of exhibits from any one state is restricted. Needless to say Mr. Rhoades, the Secretary, replied in effect, "No the more the merrier." Illinois growers will be well represented in the competitive classes.

Greater interest in the World's Grain Show is developing in the State of Ohio U.S.A., as the days roll by. R. C. Kirk of Jeffersonville, an officer of the Ohio Seed Improvement Association requests more copies of the Prize List, and concludes his letter by saying that "many exhibitors from this section of Ohio are planning for exhibits and to come in person."

E. T. Tinney of the Dominion Experimental farm at Charlottetown, P.E.I. in a radio address on the World's Grain Show, advised the growing of grain for exhibit this year. "By growing a crop in 1930," he said "we have an opportunity of testing the purity of variety. If the grain cannot be made pure by roguing (that is pulling out off-type and foreign varieties) the entire lot may be discarded and new seed procured for that 1931 crop." Continuing Mr. Tinney said, "you will remember also there is no restriction regarding the year in which the exhibit is grown. If, therefore, we should produce crops of excellent quality in 1930, it might be well to save sufficient for your entry, for 1931 might prove to be a poor crop year, and we would thus be shut out altogether."

News Notes

Magrath and Raymond are playing their postponed game of Baseball Tonight at 6:15 p.m. in the Ball Park.

The Merc. Staff won a hotly contested baseball game from the Sugar Factory last night the score being 10-12 in 10 innings. The Business men won from the Professionals 27-15.

This weather is making everyone feel better and you can almost watch crops and gardens grow.

CAUTION

All ditch water used for domestic purposes should be thoroughly boiled. This information and word of warning was given out last week by Dr. G. W. Leech, Health Officer, following the death last week of two babies due to a severe intestinal disturbance.

IT'S MY STOMACH

Food plays an important part in the securing and maintaining of health. We are told that we should eat to live not live to eat which is one way of saying that we should not eat to excess. It should be taken into consideration that the body demands a well-balanced diet which will include milk and milk products, fresh green vegetables and fruits.

I proper food and proper digestion are of an importance that cannot be overemphasized. The stomach does its work day after day and does not very often fail to do so. It stands a fair amount of abuse without protest and as long as it works without attracting attention we do not give much thought to this important organ.

Pain or discomfort in any part of the abdomen is apt to be blamed on the stomach, which is then said to be upset. Very often, the last thing eaten is thought to have disagreed with the stomach.

When there is discomfort or pain in the region of the stomach, there is something wrong, but it certainly does not mean that the stomach is necessarily responsible. Abnormal and diseased conditions of the stomach do occur, but most of the distress blamed on that organ is not caused primarily by the stomach.

Worry, nervous strain and anxiety are real causes of pain occurring in the upper part of the abdomen. The business man who works under tension, who hurries through his lunch, and who does not take time to relax, may expect to have an upset stomach.

The onset of many of the acute diseases is accompanied by loss of appetite, nausea and sometimes vomiting. In such cases, the stomach, as one organ of the body, is affected by a general disease of the whole body.

Heart disease may mean that the supply of blood to the stomach is not sufficient to allow the stomach to do its work properly. As a result, it is difficult for the organ to digest foods which require a considerable time for the process. Under such circumstances the use of foods which are difficult to digest may be followed by distress, but the heart, and not the stomach, is really to blame.

When the stomach goes on the rampage, we should not think so much of the last thing eaten as being the cause, but rather consider this as a symptom of some condition which requires attention.

The stomach should not be abused. It is not to be expected that foods and beverages can be used indiscriminately without causing trouble in the organ which is overburdened as a result of such carelessness.

Another nice thing about a radio sermon is that people don't turn and stare at you when the preacher denounces your pet sin.

Baby Chicks

Thousands of pure-bred Chicks hatching twice each week for immediate delivery. 100 p.c. live arrival guaranteed. The weather is warm, broody hens are waiting. Rush your order. Pay for the chicks when they arrive. We will ship C. O. D. subject to inspection. We guarantee our chicks.

"I wish you would sell that dog. Yesterday my daughter had to stop her singing lesson because your dog was whining all the time."
Neighbor: "I'm sorry, but your daughter began it."

Why, old man, there were so many of us children, that we had to eat at three tables—first second and third, you know, like a church supper. I was the unluckiest little feller in the world."

"Yes? How so?" Said I.
"Why I being the youngest always had to eat at the third table and—believe it or not I was 14 years old before I knew that a chicken had anything but a neck."

Here and There

(528)
The new hotel in course of construction for the Dominion Atlantic Railway at Kentville, N.S., will be completed this fall and is expected to open shortly before Christmas. It will replace the present Cornwallis Hotel while retaining the name, will have 100 bedrooms, ballroom and assembly hall, main dining room, rotunda, billiard room, card room and usual offices, and will be a notable addition to the list of new and up-to-date hotels in the Maritimes.

No widespread or general depression exists in Canada, though several factors, notably the failure to market our grain and the loss in buying power resulting therefrom, have contributed to a slowing-up of traffic, declared E. W. Beatty, chairman and president of the Canadian Pacific Railway, addressing the shareholders of the company at the 49th annual meeting held early in May. He added that there was nothing of a fundamental character which should prevent the return of normal business conditions within the next few months. Mr. Beatty said, "We have all been hopeful that the first and perhaps most essential change both because of its psychological as well as its commercial effect, namely, the free movement of grain out of the country, would be in evidence during this or next month."

At the annual meeting of the Canadian Pacific Railway Company held early this month dividend of 2½ percent on common stock for quarter ending March 31 last, was declared from railway revenues and special income, payable June 30 next to shareholders of record May 29. R. S. McLaughlin, of Ottawa, president of General Motors of Canada, Limited, was elected to the board of directors.

Canada's new championship 18-hole golf course, the Royal York of Toronto, is scheduled to be opened officially May 19, when it is expected there will be a distinguished gathering of golfing notables present together with E. W. Beatty, chairman and president of the Canadian Pacific Railway, the organization responsible for the creation of the course. It has a length of 3,140; 3,370; 6,610 yards from the championship tees and a par of 35-37-72.

A bright Atlantic silver salmon, weighing 28 lbs., hooked on the Cain's River, April 28 last, by David Hayes, vice-president of the General Electric Company, Bridgeport, Conn., is regarded as the record spring run salmon ever taken by early anglers in New Brunswick. The party with Mr. Hayes landed 342 salmon, all of which, except some eaten, were returned to the water. "I never saw such good fishing," he said.

At the Calgary Bull sale held recently, the largest sale in North America at which bulls are sold singly, 531 bulls realized \$115,475, an average of \$217 each. Hereford were the sensation of the sale, 218 head bringing \$66,395, or an average of \$304.56 per bull.

"Lady Victorine", barred Plymouth Rock hen which last year laid 358 eggs in 365 days, a record, is this year bidding strongly to maintain her position, having laid 100 eggs up to April 15, and keeping up her average since that date.

TO WHOM IT MAY CONCERN.

NOTICE IS HEREBY GIVEN that the Mayor and Municipal Council of the Town of Raymond propose passing a by-law authorizing the closing and selling to suitable purchasers the following streets within the Town of Raymond:—

The Streets lying between Lots B-C-D and E, and Victoria Park which run parallel with the East and West and the North and South lines, which bound the said Victoria Park on each of the following sides, to-wit: the North, the East, the South, and the West sides of the said Park, and connecting with the Circle in such manner as to form a complete square when bounded by said lots B, C, D, E and the said Victoria Park, all in Plan 2039 I, Raymond.

Also, the Lane running North and South through Block 66—plan 2039 I, and the said Victoria Park, all in Plan 2039 I, Raymond.

Dated at Raymond this 22nd day of May, A.D. 1930.
O. H. Snow, Sec-Treas.
